

The FASEB SRC **GH/PRL Family in Biology & Disease** has organized three 'Career-Development Panel Discussions' as part of its scientific program, which will consider the many challenges in the transition from trainee to the next phase of one's research career. The first panel, co-led by Drs. John Kopchick, Russ Hovey and Darlene Berryman will discuss "Finding the RIGHT work environment (Industry vs. Teaching/Research/Administration Mix)". The second, will discuss "Makings of a successful career development award", led by a panel of individuals who have received or mentored successful applications. The final panel will be co-led by Drs. Mark Sheridan and Rhonda Kineman and will consider issues related to "Publishing – Authorship, Impact and Ethics".
